### TechStack.md

LANGUAGES

OCaml · C · C# · C++ · Python · Java
HTML · CSS · JavaScript · TypeScript · Bash

FRAMEWORKS

React · Svelte · Node.js
FastAPI · PyTorch · Tailwind CSS

DATABASES

PostgreSQL · MySQL · MongoDB
Firebase · Supabase

GAME ENGINES

Unity · Godot · Unreal Engine

TOOLS

Git · GitHub · GitLab · Docker · Jenkins
Linux · Vite · Postman · npm · Gradle

### Education.md

**Université de Sherbrooke**
Master's in Computer Science - AI & Data Science specialization
2025 - 2026

**ENSSAT**
Engineering Degree in Computer Science
2023 - 2026

**Lycée Georges Clémenceau**
Preparatory Class (MPI*)
2021 - 2023

### Languages.md

| | |
|---|---|
| French | native |
| English | B2 |
| Spanish | B1 |

### Interests.md

- Artificial Intelligence
- Cybersecurity (CTF)
- Piano (10 years)

### README.md

Computer engineer graduated from ENSSAT, with a Master's in Artificial Intelligence and Data Science from the Université de Sherbrooke. I enjoy designing robust software and exploring different approaches to solving complex problems, from low-level development to modern applications. My experience with C++, Python, and full-stack development has allowed me to work on a range of projects, from real-time systems to data-driven applications.

### Experience.md

**Software Engineer Intern** - Soliton Interactive — Montreal - 2026

Developing *BrushHammer*, a commercial mixed-reality miniature painting video game.

- Developed features and internal tools in C++ using Unreal Engine 5.
- Debugged and optimized the game in VR/MR on Meta Quest.
- Created Python scripts to analyze performance.
- Contributed to the production pipeline (Gitea, Jenkins).

Unreal Engine 5 · C++ · Blueprint · Python · Jenkins · Git

**AI Consultant** - DataAnnotation — Remote - 2026

- Evaluated language models specialized in programming.
- Validated generated code, compared software solutions, and performed quality assurance.

LLM Evaluation · Code Review · Python

**Software Development Intern** - Orange — Lannion - 2024

- Developed a Python automation tool to control measurement instruments over Telnet.

Python · Telnetlib · Tkinter

### Projects.md

**yo-watch-this** Full Stack
Web application for discovering and organizing content recommendations.
React · FastAPI · PostgreSQL · SQLAlchemy · Docker · Railway · Vercel

**rayon22** E-commerce
E-commerce application developed for the Banque Alimentaire des Côtes-d'Armor.
React · Vite · Supabase · Brevo · Stripe

**vanquished-realm** Video Game
VR game developed as SCRUM Master as part of a software engineering project.
Godot · GDScript

**Street Fighter II AI** Reinforcement Learning
Trained agents to play Street Fighter II using Gym Retro, implementing DQN and PPO.
Python · Gym Retro · DQN · PPO
